

STUTZMAN SUMMARY

Cedar Hill ♦ Texas, USA ♦ June 1996

Our Family

Jeremy is finished with school for now. He is planning to go to summer school and take Algebra. If he does that successfully, he'll get his High School diploma. Now he is working full time for a tele-marketing firm. He makes up to 1000 telephone calls a day. But for someone who is on the phone all the time when he's home, that isn't too much of a hardship.

Jason is finished with his third year at LeTourneau University. He is also home for the summer. He is back working at Micrografx, the same company he worked for last summer, doing software testing. So we're all living together as a family again for the first time in three years. Since we've all matured, I think things are a lot smoother than they were before.

Robert occasionally has excruciating pain in his left shoulder and arm. Then just as suddenly as it came, it goes away. Please pray for wisdom for us about whether to pursue having the wires removed from his shoulder.

Thank you for your faithful financial and prayer support. Without you we could not be serving the Lord in Bible Translation. We pray that God will continue to bless you for your faithfulness.

Our Work

Robert is still working on Section Headings for the whole Bible. He has finished the New Testament and has worked all the way through the Old Testament up to the book of Psalms.

Verna is still working on the programming project we mentioned earlier. Pray for her as she tries to grasp the complicated concepts involved in the project.

Our Summer Plans

We are planning a trip in June and July to Nova Scotia to visit Verna's mother and sister and to Indiana to visit Robert's mother and brothers and sisters. We have a few supporters along the way, whom we also plan to visit. While we're gone our boys will stay here, work at their jobs and take care of the home place. Pray for safety in traveling for us and wisdom for Jason and Jeremy in living on their own.

*Love,
Robert & Verna
